Graham Clarke, M.Sc., P.Eng., RHI, Consulting Engineer, Clarke Engineering

Graham Clarke is a Consulting Engineer and the owner of Clarke Engineering. Graham graduated from the University of Toronto in 1989 with a Bachelors degree in Mechanical Engineering, and became a Professional Engineer in 1991. He has since earned a Masters Degree in Structural and Foundation Engineering. He has performed thousands of home and building inspections and was formerly Vice President of Engineering at Canada's largest independent home inspection company.

Graham is a National Certificate Holder, a Registered Home Inspector, an ASHI Certified Inspector and a CAHPI New Construction Inspector. Graham is also a Past President of the both the Ontario Association of Home Inspectors and the Canadian Association of Home and Property Inspectors and a member of the Certified Commercial Property Inspectors Association and the Canadian Standards Association.

Graham is a regular speaker and trainer at conferences and seminars across North America on a variety of technical and business-related subjects.

He is a recipient of the Stephen Greenford Award and was the founding chair of the National Certification Authority for home inspectors.
